"20-9-326. Annual inflation-related adjustments to basic entitlements and per-ANB entitlements. (1) In preparing and submitting an agency budget pursuant to 17-7-111 and 17-7-112, the superintendent of public instruction shall determine the inflation factor for the basic and per-ANB entitlements in each fiscal year of the ensuing biennium. The inflation factor is calculated as follows:

(b) for the second year of the biennium, divide the consumer price index for July 1 of the current calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the current calendar year and raise the resulting ratio to the power of one-third.

(2) The present law base for the basic and per-ANB entitlements, calculated under Title 17, chapter 7, part 1, for the basic and per-ANB entitlements and the general fund payments in 20-9-327 through 20-9-330 must consist of any enrollment increases or decreases plus the inflation factor calculated pursuant to this section, not to exceed 3% in each year, applied to both years of the biennium.

(3) For the purposes of this section, "consumer price index" means the consumer price index, U.S. city average, all urban consumers, for all items, using the 1982-84 base of 100, as published by the bureau of labor statistics of the U.S. department of labor."
